# Message from the Managing director

A handwritten signature in black ink, appearing to be 'Teh Leong Sim'.

Mr. Teh Leong Sim  
Group Managing Director  
Nets Group of Companies

It has been five years since we first implement quality management system. Besides the annual activity, we have to strengthen our quality management even though we do see a slow down in the market early this year. We continue to review the KPI and design the performance link reward system in order to improve the current service. Hence, one will experience more meetings in the first quarter of the year.

We would like to seek the understanding of everyone to contribute positively to the changes that we are going to practice now. We will be using whatapps as the communication platform to engage everyone and to reduce any misunderstanding/conflict.

As we getting more and more media coverage, our focus should be on improving quality of work in order to walk the talk. We would like customer to not just impress with our working environment but also with the service that they received.

The judges (Mr. Teh Leong Sim, Mr. Tony Teh and Ms. Teh Soo Tyng) discussing the results.

Sustainability Department organised one Eco Idea Corner / Workplace Competition in February. It is a competition among three companies and the objectives are:

1. To communicate the eco concept to all stakeholders
2. To cultivate eco ideas and share with others

The judging date is on 4 March 2016 and every employee has a chance to listen to the presentation of the respective team.

The judges decided the winner of our Eco Idea Corner/Workplace competition is "Back to Natural" by Nets Impression Sdn Bhd with the following factors:

- a) Originality – handmade by individual using waste/recyclable material.
- b) Have a nice surprise element
- c) Meet the objective to communicate eco concept with others, showing how to capture eco idea and share eco idea.
- d) Able to share information with the people.
- e) Able to encourage people to take action.
- f) Sustain for a long time without frequent maintenance.
- g) Attractive display
- h) Make people feel the teamwork spirit during presentation.
- i) No claim involved

## Chinese New Year (CNY) Celebration

We had our Chinese New Year (CNY) Celebration on 4 Feb 2016 (Thursday) and the theme for this monkey year is ". This year we decided to have 'fuk luk shou' (福祿壽) Chinese Three Wise Man instead of the God of Fortune. We would like to thank the design team for making this possible. Another new initiative for this year is video shooting of the New Year blessing message of every department. The video clip was shown after the MD's speech. The game sessions were well received by the employees as we see a higher participation rate this time.

Two teams trying to guess the name of the person in front of them when the curtain dropped.

The operators form their group to build their tower as well.

The aim of this newsletter is to communicate the environmental friendly initiatives taking place at Nets Printwork to our stakeholders. We are committed to supporting and promoting sustainable products and services. At the same time, we would like to encourage all our stakeholders to become supporter or even advocators for sustainable development. This is only the first step in transforming our core business area, we are expecting more sustainable partners for future projects.
