what's in store...

In His Own Words

Our Corporate Sustainability Director Speaks

We had our third tree planting activity with Global Environmental Centre, The Global Environment Centre (GEC) is a non-profit organisation, established in 1998 to address key environmental issues of global importance – such as climate change, biodiversity and water resources. GEC is based in Malaysia but supports activities worldwide. It is our first encounter with the Mangrove Forest. It was an interesting experience for all involved and we hope to work with GEC for other future project.

We also participated in the SIRIM-Industry Night. It was like the graduation ceremony as we line up to receive the certificate on SIRIM Eco Label scheme. We will promote the Eco Label to our potential client and encourage them to place the Eco Label on their printed material. This is a small part that we can play and contribute toward the Green Procurement movement.

Another good news is we are invited by SIRIM to participate in the research and development of Carbon Footprint (CFP) labeling for products and services for Greenhouse Gas Management in November 2012. This is a another milestone in our sustainability journey.

As we usher into the New Year, we would like to wish all a Happy and Prosperous New Year!

Mangrove Tree Planting

Safety briefing session by GEC representative.

Everyone get ready with their orange life jacket

It's easier to seat down than trying to move a step further.

The race between the two heavy weights.

"Growing the Seeds of Hope" Tree Planting activity was held at Kuala Gula, Perak on 10 November 2012 (Saturday). This year, we jointly organized with Global Environmental Centre (GEC). More than 60 participants from Nets Group of Companies and Daie Engineering Sdn Bhd joined the event and planted 120 seeds of Bakau kurap (*Rhizophora mucronata*) and Bakau minyak (*Rhizophora apiculata*).

It had been a muddy but fun filled experience for the participants. Everyone enjoyed the boat ride, the beautiful scenery and dual planting (one at the mudflat area and one at the nursery).

A beautiful morning

Participants were introduced to "Sahabat Hutan Bakau" (SHB) or Friends of Mangroves in recognition of the need for the involvement of the local communities in the mangrove rehabilitation programme. We were glad to find out that our event helped the local fishermen and GEC in training the local community to develop ecotourism as well as protecting the mangrove forest.

Learning more about the mangrove.

Planting at the nursery.

Christmas & New Year Party

The Eco Welfare Committee organized the Christmas & New Year Party on 28 December 2012 (Friday) at the car park area in front of the factory. All employees brought with them one gift to exchange with their colleague. The game session also brought a lot of laughter and the colleagues get to know each other better under the canopy. The day ended with gift exchange and a lucky draw.
