"SIRIM Eco Label" – We Did It!

Nets Printwork Sdn Bhd has successfully achieved the SIRIM eco label scheme for printed materials. The first printed material which carried the SIRIM Eco Label was launched on 1 December 2011 by YAB Dato' Sri Mohd Najib Tun Haji Abdul Razak. The book, entitled "Driving Transformation", was published by the Malaysian National Institute of Translation, designed by E-Magineers (M) Sdn Bhd and printed by none other than Nets Printwork Sdn Bhd.

We are especially proud of this prized milestone, so let's continue to be an inspiration to our people, country and one day, the world!

UiTM

Talking Green at UiTM

Ms. Teh Soo Tyng was invited to present a talk entitled, "Green Event Management and Total Eco Printing Solution" at University Teknologi Mara (UiTM), Puncak Alam Campus on 22 November 2011. The talk was part of the UiTM Green Event Management Convention 2011 (G.E.M. Convention 2011).

The objective of this event was to document sustainable event management guidelines from the perspectives of economic, social and cultural, environmental and media interests. The event was organized by Pawana Events and it was also part of a compulsory project taken up by the final year students at UiTM.

Recently, members of the Eco Welfare Committee organized a Chinese New Year gala which was celebrated with much enthusiasm on 19th February 2012. It was the first time that a meaningful event such as this was held in our very own "Grand Ballroom", where 5 tables were set-up to welcome employees as well as invited guests.

It didn't matter that the menu wasn't up to expectations, because the day's activities such as calligraphy writing, video clips of past year's events and station games made up for with – echoing laughter and fun within the room. It was indeed a memorable day, especially with some fortunate winners walking away with more than one lucky draw gift. All in all, it made everyone's day and brought our organization together in the auspicious spirit of the Dragon!

& Spirited
