Message from the Managing Director

We are proud that our popular Sustainability Report 2014 can continue to win the hearts of the international judges. This time, we won the first place in Environmental Category of Fuji Xerox 2017 PIXI Awards Ceremony.

Following our collaboration with APIIT, we are currently working on Eco Games design with one new batch of students. We are looking forward to select some of those ideas and able to commercialise it with an aim to educate and create the sense of sustainability among the young players.

This July, our Eco Design & Innovation Centre is going to organise one Eco Sense Talk and we are expecting to learn the upcycling experience in Hong Kong through Assoc. Prof. Siu King Chung from Polytechnic University of Hong Kong. We hope the programme will help some local authority to better organize their recycling programme with a flair of eco design. We look forward to welcome like minded designers to come on board with us to drive this eco design agenda in Malaysia.

The aim of this newsletter is to communicate the environmental friendly initiatives taking place at Nets Printwork to our stakeholders. We are committed to supporting and promoting sustainable products and services. At the same time, we would like to encourage all our stakeholders to become supporter or even advocates for sustainable development.

This is only the first step in transforming our core business area, we are expecting more sustainable partners for future projects.
