Message from the Managing Director

After serving us since 2010, our first Anicolor machine was replaced by a new SM52 in October 2018. We still remembered that we first launched our eco printing in 2011 with it during our first open house. Our machine is considered old as it has been working long hour (day and night) if compare to other machine.

Besides, we are glad to see some new faces to join our Green Supplier Circle this year. The support from the external provider is important as they play their role in building the sustainable supply chain. The more understanding the more like-minded people and we can work together to create the green movement.

We would like to thank all our stakeholders for their support in the past years and look forward to a better partnership with all the interested party toward achieving the United Nation Sustainable Development Goals.

Green Supplier Circle on 4 December 2018

We organised Green Supplier Circle (GSC) for the 8th year at NetsEco Meeting Room.

The objectives of this meeting are:

1. To create awareness about Green Purchasing;
2. To increase resource efficiency and reduce environmental impact; and
3. To build a responsibly supply chain for the eco industry.

We have a total 10 participants from 9 different companies, they are paper supplier, finishing supplier, and even potential supplier among them.

Group photo with all the participants.

Swap up Day on 28 December 2018

We have organised second Swap up Day for year 2018 on 28 December 2018. This time, participants are allowed to bring old clothes.

Some of the items brought by the participants.

Staff of Nets Group look the items donated by others.

The aim of this newsletter is to communicate the environmental friendly initiatives taking place at Nets Printwork to our stakeholders. We are committed to supporting and promoting sustainable products and services. At the same time, we would like to encourage all our stakeholders to become supporter or even advocates for sustainable development.

This is only the first step in transforming our core business area, we are expecting more sustainable partners for future projects.
