Message from the Managing Director

Mr. Teh Leong Sim
Group Managing Director
Nets Group of Companies

We continue to organize activities that receive good responses this year. As we have a bigger team of Malay colleagues, they took the initiative to help out in the preparation work of the Raya Kenduri together with Eco Welfare Committee. They did not only decorate the office but also introduced traditional Malay game to other colleagues.

At the same time, we decided to involve more colleagues in the production of our Sustainability Report since Ms. Teh has taken up the challenge to write the G 4 version of Sustainability Report. We are lucky to have the support from our paper and print supplier to jointly produce the hardcopy report. This has not only helped to reduce the production cost but also showcase the lateness technology in printing on used printing plate and different paper type.

Time flies, this year we were organizing the 6th Tree Planting activity. We took the opportunity to reward those who has supported and joined the tree planting activity for five times. It was not easy to get oneself dirty at the muddy planting site, some enjoyed it and some do not. We look forward to more people to join us in the next planting activity.

Digi Green Day

Events

Digi organised their Green Day on 31 July 2015 (Friday) from 11.00 am to 3.00 pm at their Headquarters, Subang Hi-Tech Park. They had invited companies listed in the MyHijau Directory to their event. We had set up one booth to introduce our eco service and eco products to create awareness their employees.

IGEM MyHijau
Mark Product
Display

We were invited by Green Tech Corporation Malaysia to jointly promote MyHijau Mark Product at the International Green Technology and Eco Products Exhibition at KLCC held on 9-12 September 2015. Besides the eco labelled products, we also display our buntings and name card.

Our booth display.

Events

When Ms. Teh decided to take on the challenge to work on the Sustainability Report based on the G4 version, Mr. Teh decided to involve employees from different department in the project. This will give them a better understanding on what is Sustainability Report and to jointly discuss how we would like to present the report. This year, we are able to present new green features with the support from our suppliers for example using wooden binding, reuse and print on used plate from our production site. The outcome was very pleasing; some said it is like a story book. Everyone who sees it, likes it and want to own a copy.

Kenduri Hari Raya

Events

In conjunction with the Hari Raya Aidilfitri, Eco Welfare Committee had organized a celebration activity on 31 July 2015 (Friday). The main objective of the activity is to strengthen the relationship between the employees of different ethnic and cultural background. Everyone turned up in traditional attire and celebrate the festival with merriment. Catering was prepared in the event. One of the highlights of the celebration was the game session. Winner was presented with a hamper after completed two games, namely Batu Ceper and "Rope of Cloth".

Playing the 'Batu Ceper' game.

Nottingham University Business School Student Visit

Events

Ms. Siu Ting, Operation Manager sharing some knowledge of the print output.

Educational activity is also important besides routine works. We were glad to have 30 students from Nottingham University to visit our company on 11 August 2015 (Tuesday). We introduced the eco printing business nature and explained on the Eco concept that uphold by us. The group was led by Dr Eunice Lim Ngat Chin, Director of Executive Education. Students were very active and they also asked a lot of questions on how printing could go green. They were impressed after we have explained our Eco concept and show cased the products. We hope to enhance the awareness of Eco concept in public, especially young people because they will be the leading force of the Eco development in the future.

Tree Planting

Events

The local ladies were demonstrating how they turn old containers into flower pot.

co-organiser Mr. raj from Global Environment Centre (GEC)

Ms. Agnes receiving the special incentive for being the 5th tree planting activity.

The panoramic view of the tree planting.

We have again organized the annual Tree Planting event on 3 October 2015 (Saturday) at Sabak Bernam, Selangor.

With the collaboration from the Global Environment Centre (GEC), the project team was able to achieve its mission by planting a total of 118 Mangrove trees for the community based at Kampung Dato Hormat.

This time, over 30 participants, including both company's highest management personnel and employees, had shown their support by attending this meaningful activity. Through this annual project, the company hopes to create public awareness on the importance of the ecosystem and the people's responsibility to conserve the environment.

In the vicinity of the Malay village, over hundreds of saplings of the Mangrove tree, namely Bakau Kurap (*Rhizophora mucronata*) were planted at the mangrove belt along Bernam River. The river sets as the borders between Selangor and Perak and has a relatively good population of firefly colonies. In this regard, the project was aimed at rehabilitating and improves the condition of the degraded region. All the volunteers had shown their brilliant teamwork through effective work distribution from hole digging, planting to support building. The events finally ended with certificate presentation to volunteers for their hard work while enjoying their lunch.

Others and Up Coming

Invitation to NetsEco's Green Supplier Circle

We will invite our main Suppliers to a coffee talk, on 26 November 2015 (Thursday).

The objective of this activity is:

- To create awareness about Green Purchasing
- To increase resource efficiency and reduce environmental impact
- To build a responsibly supply chain for the Eco industry

We hope that we can have a better cooperation with our suppliers in the future.

Christmas and New Year Party

The Eco Welfare Committee is organizing one Christmas and New Year Party on 21 December 2015 at office.

The aim of this newsletter is to communicate the environmental friendly initiatives taking place at Nets Printwork to our stakeholders. We are committed to supporting and promoting sustainable products and services. At the same time, we would like to encourage all our stakeholders to become supporter or even advocates for sustainable development. This is only the first step in transforming our core business area, we are expecting more sustainable partners for future projects.
