Towards greener pastures

NEWSLETTER

Vol 27, October 2017

The newly installed solar panels on the rooftop of the company building.

Mr. Teh with a team of five at the Penang International Green Carnival.

The carbon footprint of this newsletter is 1.48 kgCO₂e

In His Own Words

A handwritten signature in black ink, consisting of stylized, flowing letters that appear to read 'Teh' followed by a surname.

Mr. Teh Leong Sim
Group Managing Director
Nets Group of Companies

Message from the Managing Director

Finally the solar panel is installed at our eco factory roof top; we have added another plus point to our claim for eco factory. We hope to be able to show our visitors the solar panel as well, hence we are finding ways to materialise this.

Besides, our plant tour has gained international's attention, we have received a group of students from Indonesia who like to learn about eco printing and sustainability. Following the increase in the number of school visit, we started to train more 'tour guide' to assist in the plant tour session. We hope our employees will also learn more about the company during this session.

We have started to recruit interns for product design this year at the Eco Design and Innovation Centre. We are taking two at a time and will be welcoming more in the coming future. We look forward to cross disciplinary students to exchange idea and work towards creating valuable project for the community.

We are also starting another collaboration with Inti International College - Interior Design to develop projects for their students in one module of their new semester. We look forward to more collaboration in the coming future with different universities and colleges in eco design related subject matter.

Tunku Abdul Rahman College Visit

The students being fascinated by the Anicolor press machine.

7 July 2017 (Friday)

The company has received a group visit of 13 students from Tunku Abdul Rahman (TAR) College, to which they are exposed to our eco designs as well as eco work ethics. These students are undergoing Mass Communication course, coming with the intention to understand the printing processes better for their course, Design for Print.

Raya Celebration

Lunch catering given to company employees to fit the festive mood.

14 July 2017 (Friday)

Another year, another Hari Raya celebration, all thanks to the Eco Welfare Committee! Not only does this celebration introduce the wonders of the Malay culture, it also strengthens the relationship between employers and employees in the company. We had a celebratory lunch as well as fun playing the Telephone Game, where the team has to pass a message ear to ear, all while chewing on local snacks.

Employees playing the Telephone Game, with a twist, where the phrases have to be whispered while chewing on snacks.

Sekolah Menengah Analisis Kimia Visit

18 July 2017 (Tuesday)

A group photo with the students and teachers in the Nets Printwork Sdn Bhd.

Another group of 37 students, this time from Sekolah Menengah Analisis Kimia (SMAK) has come for a company visit, all eager to learn our way of working in the eco-printing industry. These students are from the science stream, and are eager to learn the ways of saving the environment on an industrial level, with our company as a first example for them.

ISO 9001 2015 and ISO 14001 2015 Awareness Training

24 July 2017 (Monday)

Key personnel of NetsEco have undergone ISO 9001 2015 and ISO 14001 2015 Awareness Training, so they would stay up to date with the latest version of ISO 9001 and ISO 14001 certifications, which the company is closely associated with.

Mr. Y.C. Lee conducting the training.

Solar Panel Installation

The complete setup of the solar panels above the company building.

14 August 2017 (Monday)

The installation of the solar panels are done in a single day, complete and ready to go on the top of Lot 52. The objective of installing the solar panels is to further build an eco-friendly environment for the workplace. This set of solar panels can generate as many as 18 kiloWatts of electricity, and is set up under the FiT (Feed-in Tariff) Program, which enables the company to sell renewable energy at the FiT rate.

Penang International Green Carnival 2017

9 - 10 September 2017 (Saturday & Sunday)

Certificate of Participation and Best Booth Award trophy obtained from the Penang International Green Carnival.

The company representatives who had traveled from Kuala Lumpur to Penang for the carnival.

A group photo commemorative of the effort place into the event.

The Penang International Green Carnival has come back again this year, thanks to the Penang Green Council! They continue to aim to raise environmental awareness, and we are fortunate to continue contributing with them by participating at the venue of Setia SPICE (Subterranean Penang International Convention & Exhibition) Center, Penang. A team of five were sent to represent our company and introduced our eco products and services.

We have managed to win Best Booth Award as well during this event, which brings pride to us as a company.

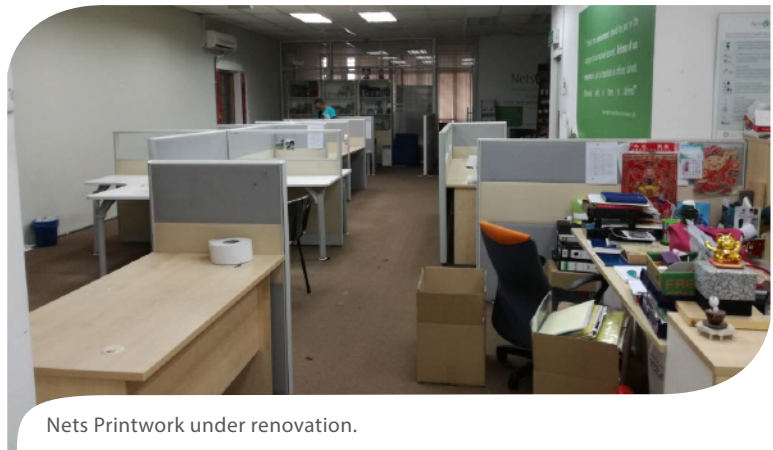

Booth arrangement for the carnival, including paper pallet showcasing, product packaging and products made from wooden pallet.

Eco Sense Talk - Human Centric Design Workshop

29 September 2017 (Friday)

Professor Hsiang hosting his workshop at an auditorium in Asia Pacific University.

The company has organised a workshop with the host being Associate Professor Hsiang Tang Chang, to talk about Eco Sense Talk: Human Centric Design. This workshop aims to enlighten participants regarding the importance of design and its relationship with users. The venue is at Auditorium 3, Asia Pacific University, with a lot of student participants from the school itself, as well as INTI International College Subang.

Others and Up Coming

NICE Expo 2017

We have been invited to set up a booth in NICE Expo 2017 as a part of Malaysian innovation.

SMIDEX 2017

The company will be setting up another booth at the upcoming SMIDEX exhibition in 15-17 November 2017.

Swap Up!

This year on December 29th, the company will play host to a swap-up event where employees, suppliers and clients alike of the company will be exchanging items that they themselves don't need, for something of more use to someone else.

The aim of this newsletter is to communicate the environmental friendly initiatives taking place at Nets Printwork to our stakeholders. We are committed to supporting and promoting sustainable products and services. At the same time, we would like to encourage all our stakeholders to become supporter or even advocates for sustainable development. This is only the first step in transforming our core business area, we are expecting more sustainable partners for future projects.
