## In His Own Words

### Our Corporate Sustainability Director Speaks

**Mr. Teh Leong Sim**  
*Group Managing Director*  
Nets Group of Companies

I am glad that for the past three months, we have achieved several milestones:

- i. We have reached out to the business community to support them in their eco programme. We appreciate their recognition to our eco efforts and would like to thank them for inviting us to showcase our services and products.
- ii. We have obtained both 1innocert and Eco Innovation Award. These recognitions have given us more confidence to move forward and continue to research and innovate.
- iii. We have confirmed to organize our fourth tree planting activity after a site visit to Kuala Selangor. This time the NGO involved is Malaysian Nature Society (MNS). It is also our first collaboration with MNS and we look forward to more meaningful collaboration with MNS in the future.
- iv. We are going to publish our own Environment, Safety and Health (ESH) booklet. The first draft is ready and this is an initiative by the Sustainability Manager to create more awareness on ESH matter among the employees.

We should not be contented with what we have achieved so far. We have also recognized some of our weakness after going through the Stage 2 Prime Minister's Hibiscus Award (PMHA) Assessment. There are still room for improvement and we are glad that we are gaining strength at every steps we take on.
