Health Awareness Campaign
9 - 27 2018
JULY

Dear Colleague,

Objective of this campaign :

1. To relief stress during one's busy working schedule.
2. To prevent health risk by building a good habit.

Activities :

1. Weight yourself before the campaign and after the campaign to see whether is there any improvement on your health. Weight is available at the eco pantry.
2. Eco welfare committee will send caring message via whatsapp group, to remind you to take a drink/ to rest your eye, to stretch yourself a bit.
3. Back to work feeling rejuvenate.

Good Health, Good Work!

Health awareness campaign was taking place for the first time in NetsEco.

In His Own Words

Mr. Teh Leong Sim
Group Managing Director
Nets Group of Companies

Message from the Managing Director

It has been a busy quarter for us. We had recruited overseas interns for the first time. This is also part of our collaboration with National Kaohsiung First University of Science & Technology Taiwan. There are a total of four students from Taiwan taking their internship with us at the Eco Design and Innovation Centre. The students experienced many first time here in Malaysia and we are glad that the learning and working experience is fruitful for them.

We have the honour to host Assoc. Prof. Siu King Chung, Hong Kong Polytechnic University and Mr. Zachary Haris Ong, President of International Council of Design to present the Eco Sense Talk entitled "Design from Ordinary to Sustainability". Assoc. Prof. Siu had provided further insights and guided us on how to develop Eco Design Course in Malaysia. We look forward to the implementation of this new eco design movement.

Following the visit from Sekolah Menengah Analisis Kimia Padang Indonesia, we were also offered future collaboration opportunity with them. Our plant tour has received quite good feedback and we will continue to improve the area mentioned by our visitors through the feedback form.

The aim of this newsletter is to communicate the environmental friendly initiatives taking place at Nets Printwork to our stakeholders. We are committed to supporting and promoting sustainable products and services. At the same time, we would like to encourage all our stakeholders to become supporter or even advocates for sustainable development.

This is only the first step in transforming our core business area, we are expecting more sustainable partners for future projects.
