Featuring
Made in Earth • Ya Liang (sustainably elegant living) • Common Good

---

eco ART FESTIVAL 2016

Eco Art Festival started with a humble beginning at NetsEco to enhance awareness of green practices for common good. We believe the integration of the environmental science and art can play a greater role to open people's mind and create emotional engagement. Hence, **Eco Art Festival aims to promote the value of 雅量 'yaliang' (sustainably elegant living) for the common good of environment, community and economy through the power of art**.

This is a month long festival to celebrate the diversity of sustainable living practices. It is built as an integrated platform for everyone to learn how to appreciate the beauty of our eco system (environment, biodiversity and people), take pro-active action through different media (art, science & technology, philosophy) to flourish and realise themselves in harmony with other beings and cultures, not at the expense and suffering of others. Every element is able to co-exist with others for the reason of common good. We will be able to achieve these elegantly.

The objectives of having this festival are as follow:
1. To create awareness on natural resources with the integration of art appreciation
2. To engage professionals in sustainable management and art, and work together towards increase attention and knowledge of sustainably elegant living
3. To network with existing programme nationally or internationally for common good through CSR activities, fund raising activities

MADE IN EARTH

Made In Earth
The tagline for this event is 'Made in Earth'-bringing the idea that all things are made from earth resources which everyone has the responsibility to ensure its sustainability for many generations to come.

We are also running a **fund raising campaign** with different sponsorship level during this Eco Art Festival to contribute to organisation or friends in need i.e. **environmentalist, artist, green SMEs entrepreneur** which objectives are align with environmental protection and community education. The sales of tickets and sponsorship will be contributed to the proposed beneficiaries. The proposed beneficiaries for this time will be

Global Environment Centre
- building partnerships for the environment -

1. **Global Environmental Centre (GEC) – RiverCare Project**
Global Environmental Centre (GEC) has established an initiative called National River Care Fund (NRCF) to support community based groups and non-profit organisations to pursue their own river conservation initiatives. You may contact **Mr. Adrian Pereira** at adrian@gec.org.my for further understanding of the fund. You may also visit **www.gec.org.my**

H.E.A.R.T. Foundation

2. **H.E.A.R.T. Foundation – Better Life Project**
H.E.A.R.T. stands for Hope, Education, Aid, Rights, Truth. They established the Amazing orchestra in March 2010. The orchestra raised fund to start a free learning program (art and music) for the welfare children in Malaysia. The members of this orchestra includes amateur musician, under-privileged children + special children. Please do not hesitate to contact Ms. Katherine if you need anymore info about this.
