IGEM - Dubai Expo 2020

In His Own Words

Message from the Managing Director

We are glad that we are positioned well to continue to serve our customers and to comply with the certifications. We continue our expansion plan and digital transformation plan. We are grateful for the cooperation of our stakeholders like our customer, supplier, employees to sustain the business in this challenging time.

Following the digital transformation, we are also going to digitalize our HR system. Our employees will experience changes in the attendance, leave application, claim application and other communication approach. This will help us in monitoring the performance of not just the machine but also the people.

While we are exploring the new business in lamination and spot UV section for the print sector, we are diversifying into different industry like smart and sustainable farming, training and consultancy in sustainability management.

We look forward to more collaboration partner in the coming years to strengthen our offering. We wish everyone a fruitful year ahead.

Mr. Teh Leong Sim
Group Managing Director
Nets Group of Companies

In Her Own Words

Speech by Sustainability Director

For the first time, we had tried to conduct desktop training for our annual fire drill. It is an alternative way during this pandemic era, to continue to maintain the awareness level of the employee.

Besides, we have accepted the invitation to participate in the Week 3 of Dubai Expo 2020. It is indeed a good exposure to learn the new technology of the world. We were given the opportunities as exhibitor at the Malaysia Pavilion Expo 2020 Dubai e-Pavilion until 30 September 2022 as well as exhibitor for IGEM Virtual Exhibition 2021.

Green Talent Transformation continue to be our main agenda for coming year. As the number of our employees is growing as the company expand the business, we need to train more of our people to integrate the green concept to their daily operation.

We look forward to plan more training programmes to prepare our people for the coming challenges.

Ms Teh Soo Tyng
Director of Sustainability
