Message from the Managing Director

We are glad to have won two more awards: the first, Steward Leadership 25 (SL25) organised by Stewardship Asia, INSEAD Global Institute for Business and Society, WTW and The Straits Time; and the second, the Golden Eagle Award by Nanyang Siang Pau in 2024. While we will continue to improve our ESG performance, we would also like to thank our employees, especially the sustainability team.

There were only 25 organisations selected for SL25 and we were the only Malaysian company to win the award. We are also glad to see more companies in the Asia Pacific region doing well by doing good during the award ceremony.

We participated in several exhibitions this year to increase our visibility in the marketplace. The shows brought many new leads and enhanced our network. It is encouraging to learn that our product is well-received in the marketplace.

Speech by Sustainability Director

Following the demand for Environmental, Social and Governance (ESG), there is an increased number of tender requests for FSC certified products. We were also busy serving our clients with all the available eco labels such as eco printing, FSC, eco design, etc. We need additional manpower in several areas, including design, business development and sales coordination to better serve our customers.

The new batch of six Taiwan interns joined us for two months in July and August. We continue to receive students for study tour. This year, we engaged external trainer for our internal audit training to enhance our understanding and skill in conducting internal audit

It is imperative that we demonstrate commitment towards sustainability, ESG and digital transformation. The target of achieving net zero is challenging for everyone, and we require concerted action and collaboration with our partners to reach this goal by 2050.

Ms Teh Soo Tyng
Director of Sustainability
